

I. Overall Description

- A. A devolved Bronto mounting a devolved Teryx and losing a VERY huge load in her. Teryx can be restrained with futuristic restraints. A nonanthro Bronto has a cock that is HUGE, and a load that's even bigger. His cock is sheathed and he has a pair of large, dangling balls. The main focus of the pic should be the moneyshot. Teryx is still straining to take him, even if she is devolved and larger.

LavaDome - Control Center

The control center of LavaDome. The control center's main table is a pretty good stage for sexploits. If they're not fucking on the table, they're probably making a mess near one of the computers.
