

I. Semi-hinged Star Fox rant about robotic feet vs futuristic boots

- A. Only pay attention to this if the refs are from the Nintendo Power comic. Putting it in my Star Fox template because lazy.
- i. This [link](#) claims it is a theory. This [link](#) conflicts that directly. Itoh's comic, final page of chapter 2 shows Slippy's bare, exposed frog feet in one sole panel. Robotic feet for the NP comic characters? No robot feet? Animal feet? Pick one. I'm done giving a fuck.

II. Overall Description

- A. Falco fucking a pregnant Miyu Lynx who is on all fours, while eating out a very pregnant Fara Phoenix. Fara is cradling a boob and sucking on her other.
- i. In zero gravity.

III. Characters

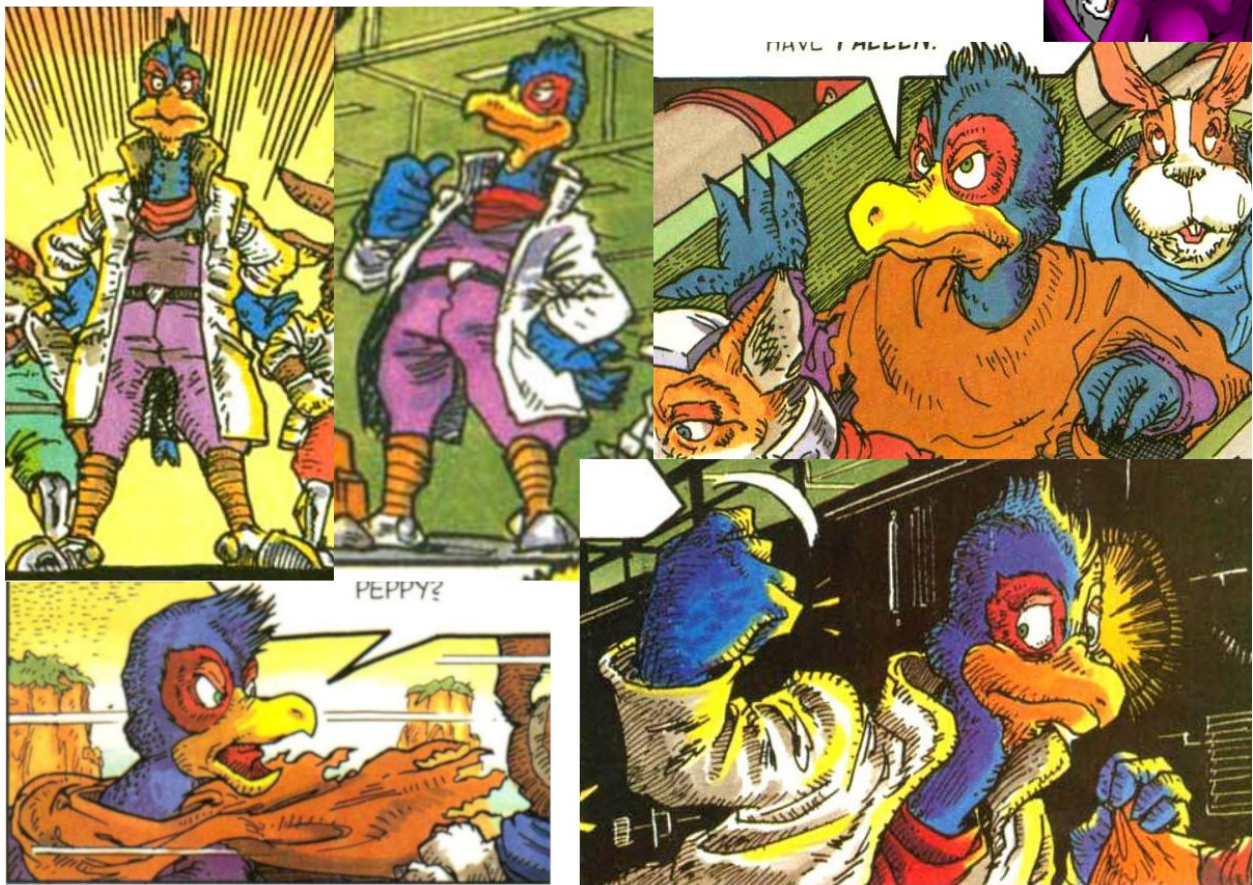

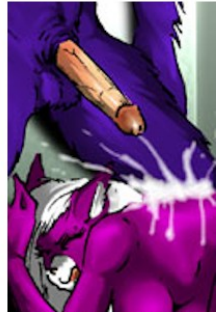

- A. See pictures.

IV. Background

- A. Zero gravity chamber. See final page.

Miyu

Miyu is a tomboyish, anthropomorphic lynx who appeared in the unreleased *Star Fox 2* for the Super Nintendo Entertainment System. Because her only appearance was in an unreleased game, she is no longer considered canon to the rest of the series.

Miyu, along with Fay, pilots a faster Arwing model type called the *Interceptor*, which lacks in hull armor compared to the other Arwing models. However, an upgrade found later in the game could make up for this loss of defense.

No official artwork of Miyu was ever released.

Trivia

Given that so many elements of *Star Fox 2* were carried over to *Star Fox 64* (such as the *Star Fox Team*) it could be considered that Katt Monroe, an ally of *Star Fox* who was also a cat, may have been a replacement.
