# TORIZO

**You'll encounter Torizo early in your mission. He hides by taking the form of a Chozo statue, but as soon as you grab the Item that he holds, he'll come to life and will begin to attack you! Torizo and Chozo basically mean the same thing, but you'll never be attacked by a Chozo!**

Transform into the Morphing Ball or jump up to avoid Torizo's swinging arms. It's difficult to totally avoid them, though.

When Torizo spews Bombs from his mouth, shoot them before they land. You can get Energy Power-Ups and Bombs from them.

A combination of jumping and using the Morphing Ball will help you to avoid Torizo's crescent-shaped shots.

Torizo begins to move faster as it takes more and more damage. Just keep blazing away at it even when its head comes off.
