

I. Description

A. Background

- i. They are at the shore of the mudpit and are in short flat grass. The picture fades away in distance and off in view the grass turns to dry dirt.

B. Character Info

i. Marnol

- a) Marnol is a male hippo with a human cock. He is eleven feet tall. Erect, his cock is three feet long. It is the same color as the rest of his body. I've included a square of Marnol's color. He has no hair or any other noticeable features except for what's between his legs. He is 600 pounds because of his species, but is also well built. He has black eyes. His nipples are black.

ii. Rine

- a) Rine is a male gray elephant with a human cock. He is twelve feet tall. Erect, his cock is four feet long. It is a gray flesh just like the rest of his body. He has black eyes and is well built. No scars or any other noticeable features except for what's between his legs. No hair. He weighs about 700 pounds. He's well built, not fat by any means. He's 700 pounds because of his species. His nipples are black.

iii. Laoul

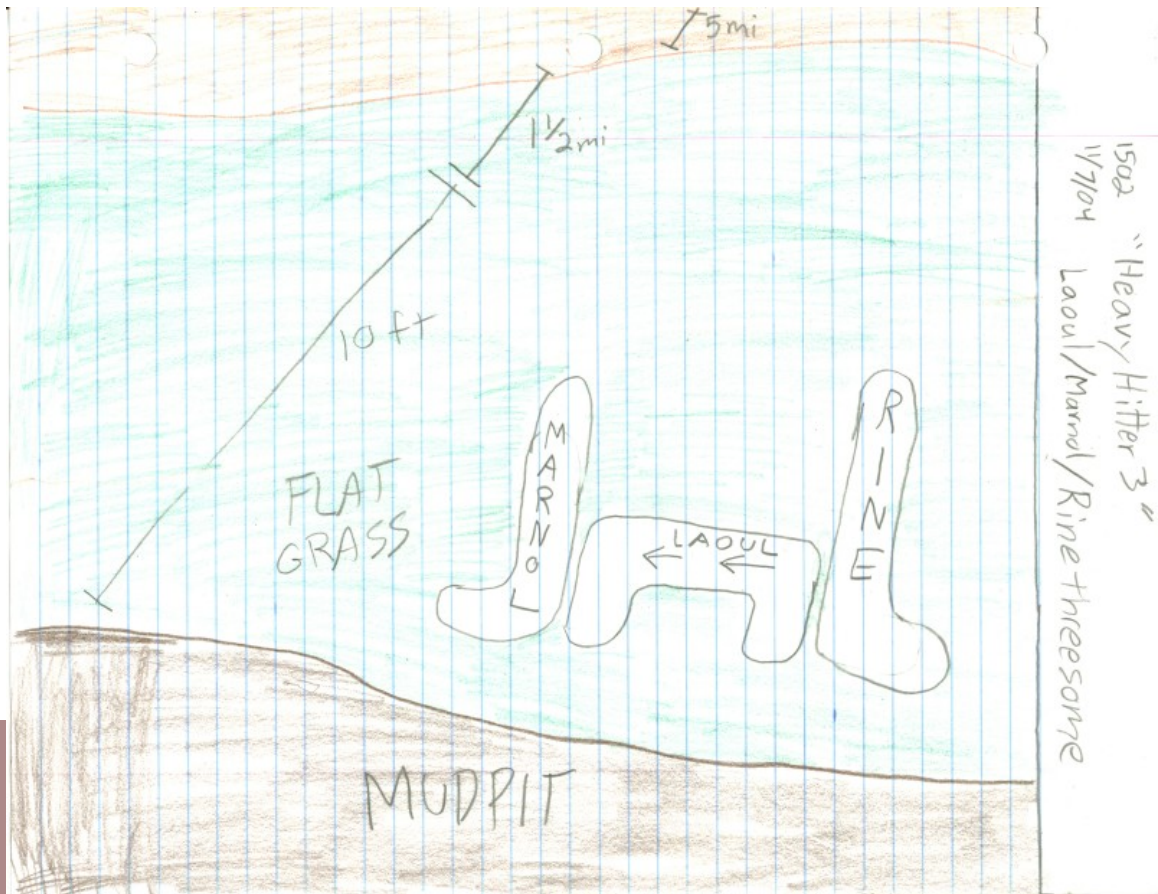

- a) Laoul is a female hippo. She mirrors Marnol in size and proportion at eleven feet tall. Her chest is huge to smaller species, but just right to Marnol. Although, her tits are small to Rine. Her nipples are black. Use the same color square for Laoul as I've included for Marnol. She has black eyes and has no other noticeable features.

C. Overall Description

- i. Alright. Marnol is on his knees getting blown by Laoul. Laoul is on all fours getting stretched WIDE by Rine behind her. Rine is also on his knees at the other end. Dried mud covers Laoul from the waist down. Large amounts of pre are seeping from Laoul's pussy and onto the grass. Marnol is fucking Laoul's face.

II. Story Scene

- A. *"No... just breed me. Come on, studs. Make me yours..." she moaned lustfully. Marnol inched his way forward and shoved his staff down Laoul's hungry mouth. Laoul closed her lips around the flesh and began to blow on the great length. She wiggled her ass teasingly at Rine, growing impatient for him to fill her. The larger elephant shifted his hips forward and shoved the whole four feet of flesh up her quivering cunt. Laoul went wide-eyed and coughed onto Marnol's cock. Her first elephantine lover was stretching her wider than she had ever been. He was too big for her, but she didn't want that to be an obstacle. Laoul fell to her elbows and gagged on Marnol's penis. Marnol kept her head level with his hands took to fucking her face.*
