

I. Description

A. Character Info

i. Marnol

- a) Marnol is a male hippo with a human cock. He is eleven feet tall. Erect, his cock is three feet long. It is the same color as the rest of his body. I've included a square of Marnol's color. He has no hair or any other noticeable features except for what's between his legs. He is 600 pounds because of his species, but is also well built. He has black eyes. His nipples are black.

ii. Rine

- a) Rine is a male gray elephant with a human cock. He is twelve feet tall. Erect, his cock is four feet long. It is a gray flesh just like the rest of his body. He has black eyes and is well built. No scars or any other noticeable features except for what's between his legs. No hair. He weighs about 700 pounds. He's well built, not fat by any means. He's 700 pounds because of his species. His nipples are black.

iii. Laoul

- a) Laoul is a female hippo. She mirrors Marnol in size and proportion at eleven feet tall. Her chest is huge to smaller species, but just right to Marnol. Although, her tits are small to Rine. Her nipples are black. Use the same color square for Laoul as I've included for Marnol. She has black eyes and has no other noticeable features.

B. Overall Description

- i. Alright. Marnol and Rine are kissing each other on the far shore. Their cocks are erect and waving about. Laoul is facing the men and doing her best to watch without being noticed, but she's not doing a good job. She's interested in them. I did the best I could with the background to illustrate distance for the far background. Laoul's lower half is in the mudpit and the other two female hippos are off soaking themselves in mud and enjoying themselves, ignoring the fact that Laoul is watching both men. Marnol and Rine are lying down in the flat grass, turned towards each other.

II. Story Scene

- A. *Marnol and Rine were huddled up together beside the nearby mudpit. Both males were caught in a passionate kiss and both of their cocks were bouncing about in various stages of arousal. Several female mud-bathers were sharing in the mix of liquid earth, not seeming to mind both men at the pit's edge. One of the women, however, couldn't resist taking notice at them. Laoul was focusing her sights on Marnol. He certainly wasn't a member of her vast tribe and had the same build as herself. Her tribe mates were too busy with coating themselves in mud to care about Laoul's building intentions.*
