

**I. Description**

A. You're taking the sketch from below and redoing it using the two characters.

**II. Background & Angle**

A. Use 3d render. Other details: Leopard spotted sheets are strewn. There pillow is also in a leopard pattern and is on the bottom of the pic but it's hard to tell. Basically carpet on the right, wall on the left, and use the sketch to copy from. Mattress is white.

**III. Characters**

A. Alkalide

i. Silver dragon. Black fleshed cock (14"). Seven feet tall. Four foot wing span, cock same proportion as sketch. Green eyes.

B. Tera Bravehart

i. 5'11". See reference picture for everything else.

*Pose to redo. Tera has her spots. This would've been perfect but the artist dropped off the map in 2004 and there are no wings. The dragon also has arms. Claws gripping into the strewn sheets.*

*Background and angle to use.*

*Dragon and partial room reference.*
