

Hello kewl Natasha!

The left pair: Anubis fucking the preggo wolf on all fours.

The right pair: Thoth taking the frog anally, via reverse cowgirl. The frog cradling her boobs and sucking from one.

Wolf is eating out the frog.

I've got it in my head looking something like this rough.

Background: Breeding pyramid. We've done a birthing chamber, room with curtains, room with curtains, throne room with a closeup on the throne. Blah. There have to be other parts of the pyramid that aren't coming to mind. Surprise me?

*Make the ladies this fat and swollen!*

*This frog, nine months preggo.*

*This wolf. Nine months preggo. Keep the rollerblades and scarf on her. ;)*
