B. Fara Phoenix

i. 5'9", green eyes.

**IV. Angle & Background**

i. See 3D render on page 4. Tight shot, enough on them as possible.

**V. Story Scene**

A. *“Shut up and fuck me,” Fara ordered, wrapping her legs around his hips. She struggled at her pawcuffs, keeping up her role of trying to escape. Fox was careful about her belly, but Fara's encouragement made his fear of hurting their kit go away. “Fuck your prisoner. Take me just like you took my virginity on that bed back in your castle on Papetoon. I'm your dungeon whore. I...”*

*Fox growled and Fara squeezed his hips with her legs, riding out a powerful climax. Her musk and fluids from her being eaten out were drenching her crotch fur. The fennec's screaming filled the empty house, which would soon be replaced with the wails of their coming kit. Fox couldn't hold on any longer.*

*He thrust his growing knot into the petals of Fara's sex and tied to his bonded wife. “TIE ME!” she screamed while struggling at the secure cuffs. Her cunt walls stretched around the bulge of flesh until her cunt sealed around it. The warmth of Fox's seed were pumping her body. They were tied.*

Aborted picture of this scene by Pommegranite of FurAffinity. She was going to do this, but fell into some rough times. This is what it should look like, though the stage of coloring was still preliminary. Try and keep Fara's ears flattened to be consistent with all of the below comic references. The size of this bed is a bit small. Use the render's version. Her arms might not be at each end of the bed as the one in the render is a king size.

*example of Fox's cock with knot, but the tip in this is obviously being used...*

*Fara pregnant, with Fox. Make her body development exactly like that.*

*Fox's cock can knot, but it's not swollen.*

*Angle & background to use. I whipped this render up of their home bedroom as they're not yet moved in. The program isn't perfect. >.> Sheets are obviously strewn. Pillows like in the aborted pic.*
