

I. Overall Picture

- A. Fox McCloud taking Fara Phoenix's virginity after the war.

II. Pose

- A. Fox and Fara both naked. Fara is on Fox's chair/bed thing in his Papetoon room, legs wrapped around his hips while Fox breaks her virginity. Fara is totally losing it and Fox is fucking between her legs. Musk and a small bit of blood oozing down her thighs. Both of their com-links are on.

III. Characters (Trying to make them as close to the comic as possible)

- A. Fox McCloud
i. Wears gloves in reference pic. Remove them. Paws the same color as the rest of his orange fur. Sheathed cock (9"). Pink. Green eyes. White tailtip, ventral stripe.
- B. Fara Phoenix
i. Eyes shut. Obviously shorter than Fox.

IV. Background & Angle

- A. Fox's bedroom in his Papetoon hideout. Surprise me with the angle. Just keep all the little details in perspective for whatever angle you choose.

V. Story Scene

- A. *“Ungh!” the fennec cried. McCloud punctured her barrier and wasted no time in fucking her. A mix of blood and musk trailed down her thighs, but didn’t hinder Fox’s eager fucking.*

“Damn you’re tight!” Fox groaned. Fara wrapped her legs around his hips and squeezed.

“Don’t stop!” Fara growled. Her inner walls milked at him and the massive resistance made Fox pound her harder.

The Cornerian military was busy performing cleanup operations around Venom and the ruins of Area 6. General Pepper was in the main control center of the Cornerian Defense Force’s base, overseeing operations.

“Where is that grunting noise coming from?” General Pepper asked.

“I don’t know sir. It’s an open channel on our frequency,” said a leopard lieutenant.

“Oh Fox... fuck me...” wailed Fara Phoenix.

“Phoenix... That’s one way to celebrate a victory. They don’t know they’re transmitting. Jam the signal...” Pepper ordered.
