V. Story Scene

A. *Fox licked his lips. He had never had a sexual encounter with a an eight month pregnant woman before. At least this one was his wife... From the limited knowledge Fox did have, pregnant women were horny as fuck during their term and their orgasms became more powerful and happened quicker the further that they were along... “That’s it, my love. Take your prisoner like the bitch she is...,” Fara cooed. The fennec slowly spread her legs and the vixen’s pulsing cunt came into view. Fox slowly lowered his head down to Fara’s depths and ran his tongue over the fennec’s labia. Fara gently struggled at her bonds and tilted her ears back in pleasure. “Yessssss... give me a good one.”*

Fara Phoenix without comlink; hostage. Great body shots.

Fara pregnant, with Fox. Make her body development exactly like that.

Fox and Fara size difference

Angle & background to use. I whipped this render up of their home bedroom as they're not yet moved in. The program isn't perfect. >.> Sheets are obviously strewn. Pillows like in the aborted pic.
